

Metallographic Etching Reagents: II. for Copper Alloys, Nickel, and the Alpha Alloys of Nickel: Scientific Papers of the Bureau of Standards, Vol. 17

By H. S. Rawdon

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 46 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. In 1901 the National Bureau of Standards (NBS) was founded to provide standard weights and measures and to be the national physical laboratory for the United States of America. The NBS conducted a lot of research in the fields of science and technology which were reported as Scientific Papers. In 1988 the NBS became what we know now; the National Institute of Standards and Technology (NIST). This is one of those documents written by employees of the NBS. This item ships from La Vergne, TN. Paperback.

Absolutely among the best publications I have got at any time go through. It really is written in straightforward phrases rather than hard to understand. It has been designed in an extremely straightforward way which is just soon after I finished reading this publication through which basically modified me, altered the way I believe.
