Book Condition: New. Publisher/Verlag: Springer Netherlands | Although this book is a translation from Dutch, the chief obstacle to be overcome was Husserl's (German) technical terminology. As I sought English equivalents for German phenomenological terms, I made thankful use of Dorion Cairns's Guide for Translating Husserl as well as existing translations of Husserl's works, especially J. N. Findlay's rendering of *Logische Untersuchungen*. Since the technical terminology in the various translations and English studies of Husserl is far from uniform, I had to devise my own system of equivalents for key Husserlian terms. As I translated the quotations from Husserl's works into English, I did consult the available translations and draw on them, but I endeavored to keep the technical vocabulary uniform -sometimes by fresh translations of the passages quoted and sometimes by slight alterations in the existing translations. I made these changes not so much out of any basic disagreement with other translators as out of a desire to keep the terminology uniform throughout the book. 1 For the benefit of German and French readers not entirely at home with the English phenomenological vocabulary, I have included a small translation table in which my English equivalents for some central German terms are listed. Words with cognates or well-established phenomenological terms as their English equivalents have not been included. Finally, I should like to express my thanks to Prof. | One Philosophy as Descriptive Psychology.- I. Acts, Contents and the Relations between Them.- Section 1.
